Print on cardstock and laminate for durability.  
Alternatively, you can print and place in a sheet protector.

Use in your literacy centers, send home in homework folders, use with reading buddies or use as morning/bell work.

## How to Play:

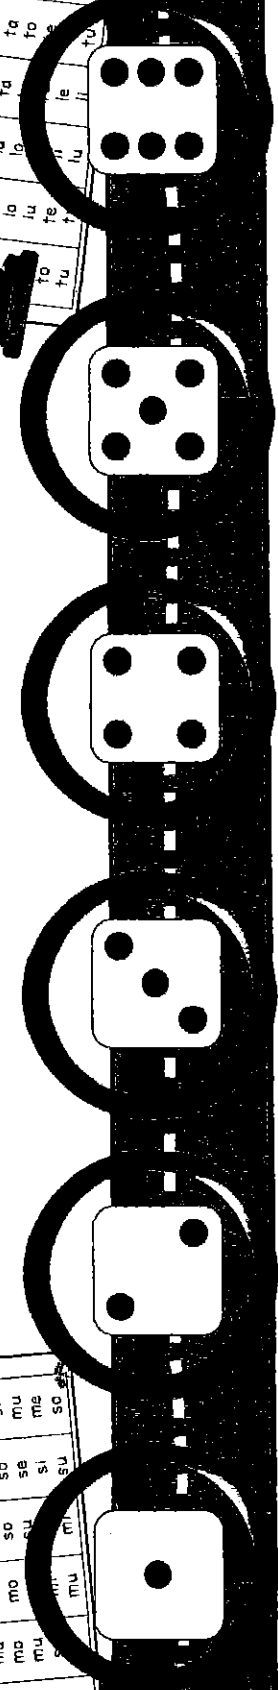

In pairs, students take turns to roll a die and then read the list of words that are found under that number. Students are aiming for speed and accuracy.  
For an added challenge, time students using different interval hour glasses.
