

# Les Sons Pratique 3

## in & on

**on** = sound like the beginning of "only" without the "n" or the "ly" sounds. It is in bonbon!  
(Candy...they ALL know that one!)

**Directions:** 1 minute timed. Have your child track (touch each "word"/sound) as he/she says it. If needed, your child may say "f" "in" and blend "fin". The end goal is that your child will simply say the blended word immediately (ie. "fin") without having to sound out each part.
